

R22 SERVICE LETTER SL-71

R44 SERVICE LETTER SL-57

R66 SERVICE LETTER SL-19

DATE: 07 November 2016

TO: R22, R44 & R44 II, and R66 Owners, Operators, and Maintenance Personnel

SUBJECT: Avionics Software

BACKGROUND: Modern avionics system software is complex and subject to rigorous testing by RHC to assure proper function and integration in the aircraft. System software updates should not be accomplished unless RHC has specifically approved the new version.

COMPLIANCE PROCEDURE:

Prior to updating factory-installed avionics system software, consult www.robinsonheli.com > Publications > Avionics Software page to determine if intended software version has been approved.

NOTE: This SL applies to system (operating) software. Databases (e.g. charts, terrain, etc.) may be updated regularly using avionics manufacturer's recommended procedures.
