Robinson's Cockpit Video Camera introduced at Heli Expo 2020 is now optional on R22/R44 helicopters and standard on R66 helicopters ordered after 15 January 2021. Securely mounted in the ceiling for minimal vibration and optimal field of view, the 4K Ultra HD video camera records video, intercom audio, radio communications, and GPS position to a removable 128 GB USB flash drive.

Now Available on R44s, True Blue Power's TB17 Lithium-Ion Battery

The TB17 Lithium-Ion battery offers weight savings, improved starter performance, and longer life. At 16 pounds, the TB17 is substantially lighter than the R44's standard 29.5-pound battery, reducing the helicopter's overall weight by 13.5 pounds.

New Year, New Paint Schemes, New Colors

The R66's new scheme is a bolder design, paying homage to Robinson's popular Astro scheme. The R44 Raven paint scheme flows east-west marrying flair with refinement and accentuating the aircraft's aerodynamic design. View all the new colors and paint schemes on Robinson's website.

Dealer Highlight - [SKY Helicopters](#)

Employing a mix of Robinson R66 and R44 Newscopters, SKY Helicopters' (Garland, TX) primary business is news gathering for TV stations across the United States. In addition to 16 Newscopters, SKY owns and operates 10 Robinson helicopters for tours, charter, energy customers, and flight instruction. SKY has been an RHC dealer and service center for over 25 years.
